ABOUT THE COURSE

SAP PM

SAP Plant Maintenance (SAP PM) is a key module in SAP ERP that manages maintenance activities within an organization. It helps businesses plan, track, and execute maintenance tasks to ensure equipment reliability and efficiency. SAP PM includes features for preventive maintenance, work order management, breakdown maintenance, and asset lifecycle management. It integrates with other SAP modules like MM (Material Management) and FICO for seamless operations. By optimizing maintenance processes, SAP PM reduces downtime, enhances asset performance, and ensures compliance with safety regulations, ultimately improving overall productivity and cost efficiency in manufacturing and asset-intensive industries.
