Instructor Profile

AMOL S. PANDIT , FOUNDER AND CEO

- Conducted over 5000 training sessions, driving measurable improvements in operational efficiency and team performance.
- Consulted for Fortune 500 companies and world-class academic institutions, fostering innovation and growth.
- Developed and implemented customized training curriculums, focusing on practical applications and organizational objectives.

Course Description

The 5S+1 Implementation course teaches participants the principles of 5S—Sort, Set in Order, Shine, Standardize, and Sustain—plus Safety as the additional step. This course focuses on organizing workspaces, reducing waste, and optimizing processes to boost efficiency, quality, and safety. Participants will learn to assess current work environments, implement 5S practices, and create a culture of continuous improvement. Practical examples and hands-on activities will guide participants in making sustainable changes to their workplace, ensuring long-term success and a safer, more productive environment.

Key Points Learned

- Understanding the principles of Lean management and its application in process improvement
- Exploring the 5S+1 tool, its components, and how it contributes to workplace organization and efficiency.
- Learning about the benefits of implementing 5S, including improved productivity, safety, and quality.
- Assessing the current state of the workplace to identify areas for improvement prior to implementing 5S.
- Evaluating the outcomes and improvements achieved post-implementation of the 5S methodology.
